PROJECTS

Java

Meeting Application   *Oct. 2022 - Dec. 2022*
- Built a meeting application, create meeting rooms, share screens, chat and send files
- In this project I build the whole project from scratch using:
    - Java for Backend, Java Swing for Frontend
    - Client - Server model
- Link: https://github.com/ilyouu/java-meeting-client-server

Laravel

Solve Math Exercises (Website)   *Jul. 2022 - Sep. 2022*
- Built a website to solve math excercises for students from grade 1 to grade 12
- In this project I build the whole project from scratch using:
    - MySQL for data persistent
    - Laravel for Backend, RESTful API
    - MDBootstrap for Frontend
    - Self-developed CDN system
- Link: https://github.com/ilyouu/laravel-solve-math-exercises

React Native

Solve Math Exercises (Mobile)   *Aug. 2022 - Sep. 2022*
- Built a mobile app to solve math excercises for students from grade 1 to grade 12
- In this project I also build the whole project from scratch using:
    - React Native for Frontend
    - Website Laravel introduced above for Backend
- Link: https://github.com/ilyouu/react-native-solve-math-excercises

EDUCATION

Vietnam - Korea University of Information and Communication Technology
Da Nang city, Vietnam
Major: Information Technology
