SUMMARY

I'm a 3rd-year university student majoring in information technology with experience in Mobile Development and Web Development. During my studies, I did some projects which are highly appreciated. I also spend time learning new technologies and best practices to become a better engineer.

TECHNICAL SKILLS

- Programming Languages: Java, Javascript & Typescript, HTML/CSS
- Frameworks / Platforms: ReactNative, Laravel, ReactJS, Web API, Docker
- Databases: MySQL, MS SQL Server
- Languagues: Vietnamese, English

EXPERIENCES

Mobile Developer

Chat Application   *Mar. 2022 - Jun. 2022*

- Built a chat application. Have features such as chat, group chat, video call, audio call, add friends, manager profile, post the story, voice search,...
- In this project I build the whole project from scratch using:
  - Java
  - Firebase for data persistent
  - Jitsi Meet for call video, call audio
- Github Repo: github.com/ilyouu/android-chat-app

Mobile Developer (React Native)

Solve Math Exercises   *Aug. 2022 - Sep. 2022*

- Built a mobile app to solve math exercises for students from grade 1 to grade 12
- In this project I build the whole project from scratch using:
  - React Native for Frontend
  - Laravel website below to make Backend (API)
- Github Repo: github.com/ilyouu/react-native-solve-math-excercises

Web Developer (Laravel)

Solve Math Exercises   *Jul. 2022 - Sep. 2022*

- Built a website to solve math exercises for students from grade 1 to grade 12
- In this project I also build the whole project from scratch using:
  - MySQL for data persistent
  - Laravel for Backend, RESTful API
  - MDBootstrap for Frontend
  - Self-developed CDN system basic
- Github Repo: github.com/ilyouu/laravel-solve-math-exercises

EDUCATION

Engineering Degree - Information Technology   **2020 - Now**

Vietnam - Korea University of Information and Communication Technology   *Da Nang city, Vietnam*
